Phoenix, Arizona 85004**

CARB 200 Series training program provides information on processes emission points, controls and inspection points for a variety of industrial processes. Each course includes a classroom session and field training at a representative facility, which gives the opportunity to see how the information applies to a "real world" situation. The courses are beneficial not only for the inspector, but also for individuals involved in rule development, permitting and emission inventory development.

<u>DATE/TIME</u>	<u>TOPICS</u>
Monday, July 10, 2006 8:00 am – 4:30 pm	Aggregate Plants Course - # 243 * - Neil Isabelle (With pm field visit)
